

To whomever this may concern:

I am the commander of the New Fairfield Veterans Association (NFVA). We are a very aggressive organization and work closely with many organizations especially Girl Scouts. We choose those who represent us carefully. We trust Sen McLauchlin and he speaks for us. The CT veterans hospitals are not those we choose to go to, the majority of us go to the Hudson Valley (NY) health care. Should something be done about this, but we have no hope in CT other then representatives like Sen. McLaughlin, but he is in the minority party and if there are any reforms they will not happen before all of us have "gone home".

Ralph C. Langham, Commander NFVA
